DETAILED ACTION

Response to Amendment

1. The amendment filed April 5, 2010 concurrently with a Request for Continued Examination has been entered.

Election/Restrictions

2. Claim 1 is allowable. The restriction requirement between various species, as set forth in the Office action mailed on September 26, 2008, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 4-6, directed to non elected species are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

3. This application is in condition for allowance except for the presence of claims 13-20 directed to various species non-elected without traverse. Accordingly, claims 13-20 have been cancelled.

EXAMINER'S AMENDMENT

The application has been amended as follows:

4. Change the status identifier of **claims 13-20** from ~~[[withdrawn]]~~ to --cancelled--.

Allowable Subject Matter

5. Claims 1-6 and 8-12 are allowed.
6. The following is an examiner's statement of reasons for allowance: the prior art of record teaches supporting a piezoelectric element on a diaphragm through an elastic element. The prior art of record, when viewed alone or in combination, fails to teach or suggest, "said first support member [having] a coefficient of elasticity that is different from a coefficient of elasticity of said second support member", in combination with the rest of the limitations of independent claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
